Types and features of deposits in banks Rates on deposits in banks: where the best Features and types of deposits in banks in Russia Types and features of bank deposits Types of deposits in banks: interest rates Types of bank deposits: interest rates Deposits are usually deposits that can be placed in both foreign and domestic currencies. As a rule, this form of investment involves not only the safety of funds, but also their increase, so many financial institutions are ready to offer their customers a variety of interest rates on deposits. It is worth noting that most of these transactions involves the introduction of a certain minimum payment, the amount which depends on many different factors. Today at Sberbank, you can choose from several dozen deposit options with different conditions. One of the most popular offers offered by this financial institution is the "Save" deposit, which allows the depositor to accumulate money and make a profit without the possibility of withdrawal. Under this proposal, the depositor gets the maximum interest when investing money for a period of one month to three years. Terms of the "Save" deposit from Sberbank
