We investigate the structural dynamics of a dimer of the membrane protein cytochrome c1b. It was found that the dimer in the monomer/dimer equilibrium is in fast equilibrium with the monomer. The dimer is in a highly populated non-native state. However, most of the newly formed dimer is quickly converted to the native state and is in a stable

equilibrium with the native dimer.Q: I cant make this particular C# code run in class project I have an application that has a class and its associated MainForm.cs. I have a button in MainForm.cs which runs a method in the class. The Button declaration is: private void btnRandomNumber_Click(object sender, EventArgs e) The method declaration is public void btnRandomNumber_Click(object sender, EventArgs e) The.cs file containing the method is: public void btnRandomNumber_Click(object sender, EventArgs e) { Random random = new Random(); lblNumber.Text = random.Next(101).ToString(); } However when i run the class project, nothing happens. When i run it in another class containing the same.cs file,
